Introduction of Services

Dear Homeowner,

We would like to extend our deepest sympathy for your recent loss and notify you that we are offering help in any way possible to you and your family. We understand wholeheartedly that this can be very difficult situation to navigate through and therefore are here to introduce our services to you.

Construction Labor Services, LLC, (CLS, LLC) has been providing general contracting, construction project management, and trade labor services for the fire restoration, water damage, new construction within residential, commercial of both mixed use and multi-family projects in and around the local area for more than 20 years. Below is a list of several projects we have built, restored and/or managed. CLS, LLC is an organization that branched in 2008 from Sims & Sims Construction which was established in 1954. CLS, LLC has a number of satisfied clients throughout the northeast section of Georgia and I would be happy to supply you further with a list of referrals. Please be assured we have an excellent reputation for quality, reliability and service.

I've enclosed a sample of our work that describes our products and services in detail for our clients, vendors, and insurance companies alike. The information will reflect services we have provided for several homeowners who experienced losses from fire damage throughout northeast Georgia area. We believe that the customer should be involved and kept on notice during all phases of construction and project management.

We would like to extend our regrets for this unfortunate incident and will do our best to ease the transition and inconveniences during such a difficult time. Please let us know if we can be of further assistance to you in any way.

Again, thank you for your interest in Construction Labor Services, LLC and please contact me should you have any questions or concerns. And you are welcome to call these references anytime as we believe they can also provide valuable information about how to navigate with your claims process.
